

Let You Know

Dijon

There's nothing wrong
With falling just a little bit more
If something's wrong
You gotta let me know
Just let me know
I can see right through ya
You need somebody that will comfort you
I can be that to ya
You just gotta tell me what to do

If there's something going on
Tell me, tell me, tell me
If there's something going on
Tell me, tell me, tell me
If there's something going on
Tell me, tell me, tell me
If there's something going on
Tell me, tell me, tell me

There's nothing wrong
With falling just a little bit more
If something's wrong
You gotta let me know
Just let me know
I can see right through ya
You need somebody that will comfort you
I can be that to ya
You just gotta tell me what to do

If there's something going on
Tell me, tell me, tell me
If there's something going on
Tell me, tell me, tell me
If there's something going on
Tell me, tell me, tell me
If there's something going on
Tell me, tell me, tell me

I just got to let you know
Wherever you need me that's where I'll be
