

Magic Loop

Dijon

When I'm waitin' on a count from you, ma
Waitin' in line for your love
Waitin' on a count from you, ma
Waitin' in line for your love

If it's easier to bear it, I'll bear it, I'll try
Instead of holdin' you back from your life
It's easier to bear it, I'll bear it, I'll try

Well, could I be the one that's on your mind?
The one that's on your mind
'Cause I'm excited to see you
But baby, I'm stuck
Could I be the one that's on your mind?
The one that's on your mind
'Cause I light up when I think of you
Could I be the one that's on your mind?
The one that's on your mind
'Cause I speed it up [?]
And could I be the one that's on your mind?
The one that's on your mind
The one that's on your mind

I'm still waitin' on a count from you, ma
Still waitin' in line for your love (Still waitin')
Waitin' on a count from you, ma
Waitin' in a line for your love

If it's easier to bear it, I'll bear it, I'll try
(Try to understand)
Instead of holdin' you back from your life
If it's easier to bear it, I'll bear it, I'll try
(Try, try, try)
Well could I be the one...

Could I be the one that's on your mind?
The one that's on your mind
'Cause I'm excited to see you
But baby, I'm stuck
Could I be the one that's on your mind?
The one that's on your mind
'Cause I light up when I think of you
Could I be the one that's on your mind?
The one that's on your mind
'Cause I speed it up [?]
And could I be the one that's on your mind?
The one that's on your mind
The one that's on your mind
