

Many Times

Dijon

There you go again, head low
Putting on a show again
It's the holidays
How come it always ends this way?
You can't take the pressure off you just to put it on me
Talking to your friends on the phone
Airing our dirty laundry

Well strawberry, raspberry, candlelight, satellite, television, X-ray vision
What's it gonna take for you to listen?
Well you can change your mind now
But you can't change your decision
You can change your mind now
But you can't change your decision, 'cause I

I don't really wanna talk about it
So many times you hurt me so much
So many times you hurt me so much

There you go again
Putting on your own rodeo again
There you push me out, just to flash that smile and lasso me in
Well I've been here a thousand times
I don't want to go again
I've been here a thousand times
One thousand and one won't be so bad

Well strawberry, raspberry, candlelight, satellite, television, X-ray vision
Ah, what's it gonna take for you to listen?
You can change your mind now
But you can't change your decision
You can change your mind now
But you can't change your decision, I

Don't really wanna talk about it
So many times you hurt me so much
So many times you hurt me so much
I
I don't really wanna talk about it
So many times you hurt me so much
Too many times you said it was over

I don't wanna talk about it

I don't really wanna talk about it, I
I don't wanna talk about it, yeah, now, now
