

## Often

Dijon

Cold hands and beer cans  
That's how we used to chill  
You took the Dodge from your mom  
And parked it up the hill

You said  
"I can't wait forever"  
You said  
"I can't wait forever"

Verse from a radio  
Feet above the wheel  
Leaning back in the backseat  
It's like the world was still

You said  
"I can't wait forever"  
You said  
"I can't wait forever"

I remember the windows were fogging  
And we were nodding off 'cause we both were drunk  
I had my hands in your pockets  
And a cop came and he woke us up softly  
I think of that often  
Do you remember that letter I sent you  
That winter when we were seventeen?  
Sayin' that I wish we'd get married  
And we could pack our bags and run away from all our problems  
I think of that often

I'm wishin' I could find you  
I'm wishin' I could tell you something  
I think of you often  
I'm wishin' I could find you  
I'm wishin' I could tell you something  
I think of you often

I remember the windows were fogging  
And we were nodding off 'cause we both were drunk  
I had my hands in your pockets  
And a cop came and he woke us up softly  
I think of that often
