

Talk Down

Dijon

Listening to Gillian Welch
Ooh, I can't help myself
Look at me, so idle
That ain't how you smile though
I like it when you
Talk down, turn the radio down
I like it when you
Talk down, turn the radio down

Listening to Bad by the bed
Honey, I hold your hand
Your eyes look tired
I like it when you
Talk down, turn the radio down
I like it when you
Talk down, turn the radio down

Would you speak?
I might bend, and listen to you
Hallelujah, my God
Fast asleep in the back of my car
I like it when you
Talk down
I like it when you
Talk down

When you speak
I might bend, and listen to you
Hallelujah, my God
Windows fogging up in my car
I like it when you
Talk down
I like it when you
Talk down

(Verse two let's do it)
You put on Liz Phair
And you lean back in your chair
Then you turn it down low
I got 15 miles
I like it when you
Talk down, turn the radio down
I like it when you
Talk down, turn the radio-

Every little kiss
On the grass girl
You blush as I ask ya, uh, uh, uh
Questions 'bout your past, ah, ah
I like it when you
Talk down, turn the radio down
I like it when you
Talk down, turn the radio down

And when you speak
I might bend, and listen to you
Hallelujah, my God

Fast sleep in the back of my car
I like it when you
Talk down
I like it when you
Talk down

Would you speak?
I might bend, and listen to you
Hallelujah, my God (God)
Windows fogging up in my car
I like it when you
Talk down
I like it when you
Talk down
