Dijon

My, my, you looked nice in it  
Yeah, you looked nice  
Neck's all wet from the heat  
Back in college you had all of me  
I made a promise you'd have all of me

And right now you look nice  
You look nice  
When we're causing a scene in the street  
Near rotted carvings left from halloween  
"You made a promise you'd take all of me"

Now you're hollering out "will you stay for me"  
Will you wait for me outside  
You're hollering out "will you stay for me"  
And I'm waiting for you outside  
I'm outside just waiting  
I'm outside just waiting  
I'm outside just waiting  
I'm outside just waiting

Oh my you look nice  
You look nice  
Crescent moon at your feet  
In Colorado snow was following me  
I made a promise you'd have all of me

Now if the light goes out will you stay with me  
Will you wait for me inside?  
If the light goes out  
Will you wait?  
Will you wait?  
Will you wait?

I'm getting tired just waiting
