

Visions, cold like cold glass
Visions, a bare light for your apartment
Your windows open right over the street
But you say you don't mind
And the night sounds help you sleep

In your dreams you go wild
In your dreams you go wild
In your dreams you go wild
In your dreams you go wild
Yeah, yeah, yeah
Wild, wild, wild, wild
Go wild
You go wild

Visions, cold air crystallizing (crystallize, crystallizing)
Visions, there are no lights in her apartment
Winter came and wrapped the town in sheets (nighttime)
But your kiss is warm and your touch turns me to pieces

You make me go wild
You make me go wild
You make me go wild
You make me go wild

And I feel you present
I feel you holding
You make me go wild
You make me go wild (you make me go wild)
It's wild now, make me go wild (wild, wild, wild, wild)
Wild now, make me go wild (wild, wild, wild, wild)
Wild now, make me go wild (wild, wild, wild, wild)
Wild now, make me go wild (wild, wild, wild, wild)
(Yeah, yeah, yeah, you make me go wild, yeah)
Wild now, make me go wild (wild, wild, wild, wild)
Wild now, make me go wild (wild, wild, wild, wild)
Wild now, make me go wild (wild, wild, wild, wild)
Wild now, make me go wild
