

## Big Business

## Dilated Peoples

No questions, I pledge resistance  
To the grass that hides the snakes of America  
So they watch it, now I walk with caution  
More careful, put more thought to options

Is the opposite of progress Congress?  
From the school to the street, we're beyond stress  
But I fight for peace, that's what the problem is  
War is big biz, ask an economist

Speak in volumes callin' anti-war  
And anti-American synonymous  
Back in the day I would've gotten  
Black listed just for speakin' up

Hoover probably would've screamed Communist!  
I want black and brown unity  
But cats get out  
To bring the jail to the community

Fightin's nothin' new to me  
I even corrected  
What the public school system  
Tried to do to me

Here's a spark encoded in rhyme  
And love for everyone of the devoted in line  
We call it art, some call it a crime  
It's the rap Michael Moore, like Bowling for Columbine

On drums, Fahrenheit, 9 1 1  
Al Queda hit the Apple and the world was stunned  
The villain trained by the hero for the killing  
Now you twist dollar twenty bills to see buildings

Under heavy surveillance  
They might call you a traitor  
If you want something greater

Don't get me wrong  
America's a great place to live  
Just listen to the knowledge I give

If more than half the budget goes to military spending  
Less than half goes to whatever it's defending  
One nation, many Gods, individuals with liberties  
And justice for all who are miserable
