

# It's Simple

Dillon Carmichael

A good song in your ear  
A hot night a cold beer  
A woman to put your arm around

A charcoal weekend  
New jokes and old friends  
A red white and blue country town  
The one you had to leave to find out

Love is for making  
Kids are for raising  
And home is that place in your heart  
Don't overthink it  
Don't complicate it  
The secret to life ain't that hard  
It's simple

A bird dog and a backyard  
Three chords and a guitar  
Sunday school Jesus loves you  
A breeze through a screen door  
A talk on a front porch  
The old man next door telling you

Love is for making  
Kids are for raising  
And home is that place in your heart  
Don't overthink it  
Don't complicate it  
The secret to life ain't that hard  
It's simple

There'll be ups and downs  
Ain't nobody saying it's easy

Love is for making  
Kids are for raising  
And home is that place in your heart  
Don't overthink it  
Don't complicate it  
The secret to life ain't that hard  
It's simple, Oh it's simple  
It's simple, simple
