

## Man Made A Bar

Dillon Carmichael

There's a neon light in a bar in Nashville  
And there's a band playing her favorite song  
And he's drownin' in shots of tequila  
Thinkin' how bad he done her wrong  
And she's movin' on

It's a place for the broken hearted  
Where you go when your baby's gone  
The sun goes down and the night gets started  
The lonely gets longer, the whiskey gets stronger  
And we all need a place to fall apart  
God made a woman  
Man made a bar

The trail of tears goes on forever  
'Cause everybody's got a heart that breaks  
There's always that one love, you'll never forget it  
A couple drinks and you can drift away  
Make you feel better

It's a place for the broken hearted  
Where you go when your baby's gone  
The sun goes down and the night gets started  
The lonely gets longer, the whiskey gets stronger  
And we all need a place to fall apart  
God made a woman  
And man made a bar

With a jukebox and a good time song  
Two lonely strangers that are movin' on, yeah

It's a place for the broken hearted  
Where you go when your baby's gone  
The sun goes down and the night gets started  
The lonely gets longer, the whiskey gets stronger  
And we all got a place to fall apart  
God made a woman  
So man made a bar

God made a woman  
So man made a bar
