Bad

Dillon Francis

Put your hands on me
No one else can see
Yeah, I know we got a thing
I know we got a thing
Took it way too fast
You're a bad influence
But you know I can't resist
You know I can't resist

And I know we want something real
But we're bad, bad for each other
And I love the way you make me feel
Just we're bad, bad for each other

And it feels so good, so good, so good
And it feels so good, so good, so good
And it feels so good, so good, so good
And it feels so good, so good, so good

Let it escalate
I don't wanna wait
Yeah, the way you keep me chasing
Nothing feels the same
With just one touch
You give my thoughts that rush
Now you know I can't resist
You know I can't resist

And I know we have something real
But we're bad, bad for each other
And I love the way you make me feel
Just we're bad, bad for each other

And it feels so good, so good, so good
And it feels so good, so good, so good
And it feels so good, so good, so good
And it feels so good, so good, so good

So good

'Cause we're bad, bad for each other
But it feels so good
But we're bad, bad for each other

And I know we got something real
But we're bad, bad for each other
And I love the way you make me feel
Just we're bad, bad for each other

And it feels so good, so good, so good
And it feels so good, so good, so good
And it feels so good, so good, so good
And it feels so good, so good, so good
