

# Change Your Mind

Dillon Francis

A million colors of you  
Could've sworn it would be us someday  
Never would try to change you  
I love the way you're so well misbehaved

All over town  
We've been doing it through the night  
Man I do know now  
How it feels to be alright

You're a shot in the dark  
You're dangerous and mine  
Chasing you til I change your mind  
Tryna rip out my heart is all that's on your mind  
I am chasing you til I change your mind

A million sorrows from you  
But I figured it'd be worth it babe  
You put yourself upon me  
And I hope that you will always stay

All over town  
We've been doing it through the night  
Man I do know now  
How it feels to be alright

You're a shot in the dark  
You're dangerous and mine  
Chasing you til I change your mind  
Tryna rip out my heart is all that's on your mind  
I am chasing you til I change your mind

All over town  
We've been doing it through the night  
Man I do know now  
How it feels to be alright

You're a shot in the dark  
You're dangerous and mine  
Chasing you til I change your mind  
Tryna rip out my heart is all that's on your mind  
I am chasing you til I change your mind

You're a shot in the dark  
You're dangerous and mine  
Chasing you til I change your mind  
Tryna rip out my heart is all that's on your mind  
I am chasing you til I change your mind
