

Over This

Dillon Francis

Every time it was all me tryna make things right
Tell me, where were you?
And I tried, but I found you had this [?]
I'd never let get started

I'm fortunate that you showed me your true colors
Painted us a picture of me and you
Easy for me to see where this thing was going
Made it clear that we were not meant to be, yeah

I'm over this, don't need your love
'Cause I am over this, I've had enough
Of all the games, no, no, no one to blame
I mean it, I am over this, over this
I am over this

Over this, don't need your love
'Cause I am over this, don't need your love
'Cause I am over this, don't need your love
'Cause I am over this, over this, ah yeah
Over this, over this
Don't need your love 'cause I am
Over this, over this
Don't need your love 'cause I am
Over this, ah yeah

Every time that we made up
Thought that things would changed
Always proved me wrong

And I finally see
I'm all I need

I'm fortunate that you showed me your true colors
Painted us a picture of me and you
Easy for me to see where this thing was going
Made it clear that we were not meant to be, yeah

I'm over this, don't need your love
'Cause I am over this, I've had enough
Of all the games, no, no, no one to blame
I mean it, I am over this, over this
I am over this

Over this, don't need your love
'Cause I am over this, don't need your love
'Cause I am over this, don't need your love
'Cause I am over this, over this, ah yeah
Over this, over this
Don't need your love 'cause I am
Over this, over this
Don't need your love 'cause I am
Over this, ah yeah
