

# Together

Dillon Francis

I'll see you at the end of dawn  
Grieve until the day has come  
When it's only you and me  
Together, together  
I search until the sun has gone  
And I've found a place to run  
And it's only you and me  
Together, together

I'll see you at the end of dawn  
Grieve until the day has come  
When it's only you and me  
Together, together  
I search until the sun has gone  
And I've found a place to run  
And it's only you and me  
Together, together

Follow me, follow me  
Follow me, follow me  
Follow me, follow me  
Follow me, follow me

I'll see you at the end of dawn  
Grieve until the day has come  
When it's only you and me  
Together, together

I'll see you at the end of dawn

I'll see you at the end of dawn  
Grieve until the day has come  
When it's only you and me  
Together, together  
I search until the sun has gone  
And I've found a place to run  
And it's only you and me  
Together, together
