

Peachy Breath

Dillon

Breaking away
She's breaking away
I am watching her from here
Stay here
Breaking away
She's breaking away
My baby's got the blues
She's got the blues

She said to follow the light
When we said our last goodbye

My baby's got the blues
And so I sing for her at night
My baby's got the blues
So I stay up with her all night

Whispering sweet nothings into her ear
I kiss away tiny crystal clear tears
I smell her peachy breath
Mixed with her salty skin
Whispering sweet nothings into her ear
I kissed away tiny crystal clear tears
I smell her peachy breath
Mixed with her salty skin

Whispering sweet nothings into her ear
I kiss away tiny crystal clear tears
I smell her peachy breath
Mixed with her salty skin
Whispering sweet nothings into her ear
I kissed away tiny crystal clear tears
I smell her peachy breath
Mixed with her salty skin

My baby's got the blues
And so I sing for her at night
My baby's got the blues
So I stay up with her all night
