

# Separate Us

Dillon

Tell me where you wanna go  
Grab a bag, call a cab  
Pick you up at the back door

They'll separate us  
Try anything just to make us go  
Try to silence us  
They'll try to break us and hurt us

They'll separate us  
Hoping we'll be theirs to form  
Hoping that we'll give up  
Fall victim to their system

I pray for freedom  
As motherfuckers try to shut us down  
But I'll never leave ya  
Instead of run  
I'ma come for them

I keep praying for freedom  
For they are not gonna slow us down  
Meet us at the forefront  
Instead of run  
We gon' confront

When a tender thought  
Meets a brutal kiss  
Did we create this?  
To a moon so full  
And a knife so sharp  
How could we resist?

Church bells chime  
As a sign of all the signs we missed  
We must insist, so  
We must coexist, go

I pray for freedom  
As motherfuckers try to shut us down  
But I'll never leave ya  
Instead of run  
I'ma come for them

I keep praying for freedom  
For they are not gonna slow us down  
Meet us at the forefront  
Instead of run  
We gon' confront

Instead of run  
We'll come undone  
Broken pieces of a time bomb  
Together we're the response  
Put together we're the evidence

Church bells chime

As a sign of all the signs we missed  
We must insist, so  
We must coexist, go

I pray for freedom  
As motherfuckers try to shut us down  
But I'll never leave ya  
Instead of run  
I'ma come for them

I keep praying for freedom  
For they are not gonna slow us down  
Meet us at the forefront  
Instead of run  
We gon' confront

They'll separate us  
They'll segregate us  
Scare us and hurt us

They'll separate us  
They'll segregate us
