

Shades Fade

Dillon

Your angle of view guided me through
The peculiar ways in which shades fade, fade, fade

Day in, day out shades fade
Through flood, through drought shades fade
Through faith, through doubt shades fade
Through this maze shades fade
Days in, days out shades fade
Through flood, through drought shades fade
Through faith, through doubt shades fade
Through this maze shades fade

I move my time, may my mind unwind
Without the speedway by which shades fade, fade, fade
See, I've walked this maze before
I've curiously explored
The paths to the core
Since I've walked this maze before
Forced to hopelessly explore
The paths to the core

Day in, day out shades fade
Through flood, through drought shades fade
Through faith, through doubt shades fade
Through this maze shades fade
Days in, days out shades fade
Through flood, through drought shades fade
Through faith, through doubt shades fade
Through this maze shades fade

The joyful glory of a love story still resonates
After shades fade, fade, fade
