

Amnesia

Dimas Bilan (Дима Билан)

Yeah
Yeah, Yeah

Used to be a flame
You used to be a fire
Whatever but the shame
A love is an another world
And you're a perfect girl
But I don't wanna listen
Think about all the pain
I keep forgetting

Keep forgetting how it hurt so, bad
Can't remember how you make me, sad
I don't wanna feel like, that
Don't want you do to me
Keep forgetting how it hurt so, bad
Can't remember how you make me, sad
Try make it easy
So I just forget you

Throwing away the memories
Don't care about the history
Won't know you the next time I see ya
I think I'm getting amnesia
Throwing away the memories
Don't care about the history
Won't know you the next time I see ya
I think I'm getting amnesia
Huh, I don't wanna think about you

Take another look, (another look), take another look
Try understand me
Open up the book
Listen no fairy tales
What you gonna say then?
I'm reaping the pages
Baby it's amazing
Ooh, but I keep forgetting

Keep forgetting how it hurt so, bad (How it hurt so bad)
Can't remember how you make me, sad (Feel so sad)
I don't wanna feel like, that
Huh, Don't want you do to me
Keep forgetting how it hurt so, bad (Hurt so bad)
Can't remember how you make me, sad (Feel so sad, yeah)
Try make it easy, (Just forget you)
So I just forget you

Throwing away the memories
Don't care about the history (Don't care about you)
Won't know you the next time I see ya (See ya)
I think I'm getting amnesia (Yeah)
Throwing away the memories
Don't care about the history (About)
Won't know you the next time I see ya (Huh)
I think I'm getting amnesia

I don't wanna think about you (Amnesia)
I don't wanna think about you (Amnesia)
