

# Back To Her Future

Dima Bilan (Дима Билан)

I close my eyes  
Still I can see you clearly  
Let it go sweetheart inside hey

Another night I miss you here beside me  
Try to figure out my life

Oh I made the way too long  
And now she's moving on all alone  
She said she was hurt

Back to the future  
Throwing the hands up  
We were going away  
She said she would not be soon here  
Thought I would chase her  
She don't feel the same  
And if I don't make a move  
I'm sure gonna lose the biggest part of me  
So whatever the takes I'm gonna find a way  
To get back to her future

Deep inside  
I try to find the reason why  
I couldn't give the strength you needed

Reaching out  
Where are the pieces missing out  
Could they've ever slipped away

Oh I made the way too long  
And now she's moving on all alone  
She said she was hurt

Back to the future  
Throwing the hands up  
We were going away  
She said she would not be soon here  
Thought I would chase her  
She don't feel the same  
And if I don't make a move  
I'm sure gonna lose the biggest part of me  
So whatever the takes I'm gonna find a way  
To get back to her future

All in all I can't blame her  
Or calling it quits  
Should have been more attentive  
To her every need

Back to the future  
Throwing the hands up  
We were going away  
She said she would not be soon here  
Thought I would chase her  
She don't feel the same  
And if I don't make a move

I'm sure gonna lose the biggest part of me  
So whatever the takes I'm gonna find a way  
To get back to her future
