Don't Leave

Dima Bilan (Дима Билан)

Two years of love, it seems to pass us by
Our love has to be the test of time
I've been there for you girl through the good and bad
Sunshine and rain

But the minute I'm thinking we're progressing
You're just saying I'm not the same
And I'm guessing you've got a secret
You're keeping from me

And I don't wanna start something
But I don't wanna play the fool in love
Make it like it was

Don't you go away girl, not now
I don't wanna say goodbye
Please don't leave 'cause I don't
Think my heart could take the blow

It's the thought around that
I don't wanna throw in the towel
Gotta make it work somehow
So don't you leave me now

(Don't leave me now)
Baby don't you leave, don't you leave
(Don't leave me now)

Listen, I blame myself (I said I blame myself)
Is it too late to put my feelings on the shelf?
She tells me that I'm overreacting
Is it all in my head? That's what I keep asking

'Cause I don't believe in things I heard
I wish we could go back to how it were
When you and I, when I would smile
I haven't seen that in a while

Baby the thought of me losing you
Think I'm going going crazy, I don't know want to do
I don't know what to do, just tell me the truth

Don't you go away girl, not now
I don't wanna say goodbye
Please don't leave 'cause I don't
Think my heart could take the blow

It's the thought around that
I don't wanna throw in the towel
Gotta make it work somehow
So don't you leave me now

(Don't leave me now)
Baby don't you leave, don't you leave
(Don't leave me now)
Baby don't you leave, don't you leave
(Don't leave me now)

I say don't you, don't you
(Don't leave me now)

Yeah I blame myself (I said I blame myself)
I blame myself (I said I blame myself)
Ooh I blame myself (I said I blame myself)
I blame myself
