

# Christmas Time

Dimitri Vegas & Like Mike

It's a cold December  
You're almost here  
I still remember  
The first day of the year  
When we

Kissed goodbye  
And we thanked our lucky star  
Know nothing lasts forever  
Like snowflakes in a jar

Cold cold nights  
And I wonder where you are

Oh how I miss you  
As days go by  
Can't wait for Christmas time  
when you come home  
Where the heart is  
In these arms of mine  
Where would I be without you  
I can't wait for Christmas time  
I can't wait for Christmas time  
I can't wait for Christmas time

Crystals on the window  
Frozen city lights  
Moonlight cast a shadow  
In this starry starry night

Now I'm spending my time, counting the days  
Till we can talk all night around the fireplace  
It's been a long time coming  
You and I, we're close to Christmas time

Oh how I miss you  
As days go by  
Can't wait for Christmas time  
when you come home  
Where the heart is  
In these arms of mine  
Where would I be without you  
I can't wait for Christmas time  
I can't wait for Christmas time  
I can't wait for Christmas time

Oh how I miss you  
As days go by  
Where would I be without you  
I can't wait for Christmas time
