

Mind Body & Soul

Dina Carroll

Mind

I want your mind to feed me with the knowledge
Of how to love you
When to love you
And where you want to be loved
Let your mind go
Enlighten me to your thoughts, dreams and fantasies

Body

Your body is an extension of desire and love
I want your body to make love
Express love
Re-create love exclusively to me

Soul

The soul is the breath of life
That comes from the flow of all things
Belonging to your soul is a sweet, sweet dream
Sweet, sweet dream

Mind, body and soul

Out of nowhere
You appear on the scene
I can see you
Like a cool summer breeze
I can feel you
Your eyes burning into me
I knew right away
It was obvious to see

You and I were falling for love
We define chemistry
I know one night is just
Not enough for me

I want your mind, body and soul
I ain't taking second best
Don't you give me any less
I want your mind, body and soul
If you satisfy this need
I will love unselfishly
With my mind, body and soul
Mind, body and soul

Can you feel me
Feel the warmth of my embrace
Can you hear me
Though no words have taken place
What I'm saying
You already know
If you are saying yes
There's no way I'm saying no

To you and I falling for love
Though love holds no guarantees
We have everything we need

So make love to me

With your mind, body and soul
I ain't taking second best
Don't you give me any less
Than your mind, body and soul
If you satisfy this need
I will love unselfishly
With my mind, body and soul

I want your mind, mind, mind
I want your body
I want your soul...

You and I were falling for love
We define chemistry
I know one night is just
Not enough for me

With your mind, body and soul
I ain't taking second best
Don't you give me any less
Than your mind, body and soul
If you satisfy this need
I will love unselfishly
With my mind, body and soul

I want it, you've got it
You've got to give it to me...
