

## Another Lifetime

Dinah Jane

I'm feelin you but the timing ain't right  
Maybe in another lifetime  
I'm feelin you but were crossing the line  
Maybe in another lifetime  
You and I will be together  
I believe in parallel universes  
The thought of you is in the back of my mind  
Maybe in another lifetime

Yuh wish I could find that other timeline where we together  
One where we stay up counting stars while you wear my sweater  
Through all our battles I'm your shadow I would leave you never  
But I guess I'll settle for this life where we never took the chance  
And I never paid you mind so I'm sorry in advance  
If I could shake the sands of time baby I would be your man  
Instead I let my thoughts unwind and carry this until the end I swear  
baby  
Baby I'd travel universes to make happy  
I recognize your energy I swear you knew the past me  
It's like you know my thoughts without even having to ask me  
I know this might sound crazy but maybe we made a family in another l  
ifetime

I'm feelin you but the timing ain't right  
Maybe in another lifetime  
I'm feelin you but were crossing the line  
Maybe in another lifetime  
You and I will be together  
I believe in parallel universes  
The thought of you is in the back of my mind  
Maybe in another lifetime

Timing isn't perfect but for you I'd catch a case  
There's sumn bout your aura baby fly me to outer space  
Ya ya Ill be waitin til the stars align  
Ya ya I'll be waitin till you all of mine  
You the one I want but at times you make it hard to reach  
Opposites attract that's how I got you stuck on me  
I see everything tryna break us is this what love really made of  
And by the end of this song  
I wanna Bey & Jay always be on the run  
You could never do wrong Serendipity gonn find us

I'm feelin you but the timing ain't right  
Maybe in another lifetime  
I'm feelin you but were crossing the line  
Maybe in another lifetime  
You and I will be together  
I believe in parallel universes  
The thought of you is in the back of my mind  
Maybe in another lifetime
