

# LET'S GO

Dinah Jane

Baby

Baby, I love you, I think that you should know that  
Ooh

You're like the sun to my moon, our love strong overseas  
You lift me up, lift me up, got you down on one knee  
And where you go, yeah, I'll go, it don't matter to me  
I wanna love you forever, indefinitely

Let's go to the tropics around the world  
I need a real one to walk this road  
I like your tempo, baby, nice and slow (Oh)  
You wanna feel my pain, yet you heal my heart  
I wanna feel your pain, keep you safe, no scars (Oh)

Don't me mad, my lover  
For we have this strong for each other (Strong for each other)  
There ain't no case no drama (Brrup)  
Mi afa go to war for you, mama  
Don't matter how much money, baby  
It could never buy this heart that really loves you, honey (Oh)  
We be steady, make it big, hustling (Hey, yeah)  
My girl, yeah, you're fine on it, mm

Let's go to the tropics around the world  
I need a real one to walk this road  
I like your tempo, baby, nice and slow (Oh)  
You wanna feel my pain, yet you heal my heart  
I wanna feel your pain, keep you safe, no scars (Mm, brrup)

Baby, you be my peace when I feel my least  
And I promise to give you more when you need a beat  
The man you'd be lookin' for, no longer have to seek  
Show you better than I can tell you, lil' mama, ven aquí  
She can love off me, they keep on guessin' on it  
'Long as we on the same page, ain't no stressin' on it  
You say you ready to go, she gon' deliver, though  
Well, as soon as you pass my line, girl, that's the easy code

Putting ya love on top like it's the morning  
Later when evening come, das when we goin' in  
Gimme all of yo trust, I need you all in  
Picking ya body up, Iickle bebe, mi hear you callin', yea  
Makin' ya body hot like you was steamin'  
Type of gal mi a see ya dat wen mi dreaming  
Ah, special love, da only kind dat we believe in  
Blessing on to mi life like if mi sneezin'

You wanna feel my pain, yet you heal my heart  
Heal my heart, heal my heart  
I wanna feel your pain, keep you safe, no scars  
Safe, no scars, safe, no scars

Let's go to the tropics around the world (To the tropics, let's go)  
I need a real one to walk this road (No, no)
