

## Almost Fare

Dinosaur Jr.

Come with me, Come with me  
It's the time now

You won't see...you and me  
Gotta find out

Always free, almost free, almost maybe  
On your own, all you know... time is fading

Now there she is, what should i do? what should i give?  
Stop to breathe, now your almost there get on your knees and...

come with me, come with me...do it over  
Go to her, all you learn...eyes will show her  
its the past, walk in last...what do you say?  
almost there, always fare...make your own way

now there she is...what should i do? what should i give?  
It all expands...  
She's walking out now touch her hand and...

Come with me, Come with me...It's the time now.  
You won't see...you and me...Gotta find out  
almost there, always fare...do it over  
Go to her, All you learn...eyes will show her
