

# Imagination Blind

Dinosaur Jr.

I can feel it like a breath on skin  
Every season, get a ritual in  
Without a reason to fight I fall  
Half of love, more than nothing at all

I don't need it but I'm here at the door  
Let me in, I've been a villain before  
I've curled my fingers throwing fist to the wind  
It's sad to think I'd do it over again

We want to leave behind what can't be helped  
We love to hold the key and keep it to ourselves  
The ones we leave behind, the ones we need  
Imagination blind, but changing

Without resistance I'd have no friends  
Without your love I don't know where to begin  
But I can wait, you take forever to thaw  
Your icy grip won't be a death after all

We want to leave behind what can't be helped  
We love to hold the key and keep it to ourselves  
The ones we leave behind, the ones we need  
Imagination blind, but changing
