

## Broken Knee

### Dinosaur Pile-Up

Broken knee, break a leg for me  
Here rubble and stones surrounds me

If you don't wanna work all night  
If you don't want the uphill struggle  
I don't wanna waste my time  
'Cause I don't want it without you

Time alone, to meet and let go  
Underneath rubble you'll find me

If you don't wanna work all night  
If you don't want the uphill struggle  
I don't wanna waste my time  
'Cause I don't want it without you

I have been through a tunnel and I don't wanna, without  
Without you  
I won't lie  
It's just around the corner  
'Cause I  
I have been through a tunnel and I don't wanna, without  
Without you  
I won't lie  
It's just around the corner  
'Cause I  
I have been through a tunnel and I don't wanna, without  
Without you  
I won't lie  
It's just around the corner

If you don't wanna work all night  
If you don't want the uphill struggle  
I don't wanna waste my time  
'Cause I don't want it without you
