

Summer Hit Single

Dinosaur Pile-Up

It's been a long hard year
With many ups and downs
And now the summer's here
And we can all come out
I've been waiting
Hibernating
Contemplating
We are gathered underground
We've all been gathered underground
Since early last year

Now that the air has cleared
I'll write a summer hit
Driving myself inside
But it just disappears
I've been waiting
Hibernating
Contemplating
We are gathered underground
We've all been gathered underground
Since early last
I've been waiting
Hibernating
Contemplating
We are gathered underground
We've all been gathered underground
Since early last year

Hey, what you know?
Summer hit single
Woah, what you know?
Summer hit single
Woah, what you know?
Summer hit single
Woah, what you know?
Summer hit single
Woah, summer hit single
Woah, summer hit single

I've been waiting
Hibernating
Contemplating
We are gathered underground
We've all been gathered underground
Since early last
I've been waiting
Hibernating
Contemplating
We are gathered underground
We've all been gathered underground
Since early last year
Since early last year
Since early last year
