

Sunflower

Dinosaur Pile-Up

Throw into the water what hurts the most
I think that you oughta just let it go
Hey, let's build a fire with sticks and stones
Leave your pain inside it and let it burn

Hey!
The sunflowers couldn't grow tall without the rain
And your heart couldn't feel love without knowing pain
Before a butterfly learns to fly, it must learn to change
Yeah, like the sunflowers grow, we grow in the rain
Yeah, like the sunflowers grow, we grow in the rain

Sometimes it's the silence that feels the worst
Deep down in the quiet, when you're alone
Hey, let's build a fire with sticks and stones
A spark in the darkness, so let it grow

Hey!
The sunflowers couldn't grow tall without the rain
And your heart couldn't feel love without knowing pain
Before a butterfly learns to fly, it must learn to change
Yeah, like the sunflowers grow, we grow in the rain

Throw into the water what hurts the most
I think that you oughta just let it go
Yeah!

Hey!
You know the sunflowers couldn't grow tall without the rain
And your heart couldn't feel love without knowing pain
Before a butterfly learns to fly, it must learn to change
Yeah, like the sunflowers grow, we grow in the rain
Yeah, like the sunflowers grow, we grow in the rain
