

# Breathless

Dio

No, no, no, no, no, no, no

You said a single word  
But no one really heard  
Sometimes we scream alone  
It's always worse at night  
When darkness kills the light  
You're in the danger zone

You wait with pounding heart  
You know it's just the start

'Cause you're breathless, ready to burn  
Breathless, the circle still turns  
Breathless, you're willing to learn  
You're breathless

Living inside your mind  
Who knows the things you'll find  
There could be hell or rainbows  
But it's a funny thing  
The more you feel the sting  
You're just a leaf that the wind blows

You've been this way before  
One step and you're through the door

And you're breathless, ready to burn  
Breathless, the circle still turns  
Breathless, you're willing to learn  
Breathless

You said a single word  
But no one really heard  
Sometimes we scream alone  
It's always worse at night

When darkness kills the light  
You're in the danger zone

You wait with pounding heart  
You know it's just the start

'Cause you're breathless, ready to burn  
Breathless, the circle still turns  
Breathless, you're willing to learn  
You're breathless

When you're breathless, alone in the night  
Breathless, but the feeling ain't right  
Breathless, ready to burn  
You're breathless

Say a single word  
No one really heard  
It's always worse at night  
'Cause when darkness kills the light

Then you're breathless

Yeah, you're breathless, ready to burn  
Breathless, you're willing to learn  
Breathless, while the circle still turns  
You're breathless, breathless

Now, now, you're breathless, alone in the night  
Breathless, but the feeling ain't right  
Breathless, I'm ready to burn, I'm ready to burn, I'm ready to burn
