

All I Want To Do Is Live My Life

Dion

All I want to do is live my life
And spread my natural water
'Cross the salty plain
You know the time of easy livin' come back again
But someone's been complainin'
Well that there's too much rain

All I want to do is show the world
That though someone is screaming
You won't hear a sound
And that all that's lost forever will one day be found
Well we ain't going nowhere, once we've hit the ground

All I want to do is not a thing
But sit and watch the roaches climbing up the wall
You never know to try and catch them in the basket
Every time they fall
And give my brain a bath in rubbing alcohol

All, all I want to do is live my life
Can nobody tell me
How it must be done?
Between a dog, and a millionaire
Who has more fun?
I got my water pistol
I'm going to shoot the sun

All I want to do is die one day
Even if they want to foreshow
Like they always do
Well just roam underneath your bed
That's all I ask you
And I might go on living when my life is through
