

# Healing

Dion

People runnin' everywhere  
In their faces I see despair  
And emptiness  
I see restlessness  
I see them in the drug store lines  
The spend their money in hopes to find  
A remedy  
For their anxiety

They read the news stand's psychology  
They look for peace but they do no see  
The simple truth that  
Frees us from our pain

Healing is faith  
And it's prayer  
It's knowing that He's always there  
Healing is light  
In the dark  
It's knowing His forgiveness in your heart  
Healing is hope  
And it's dreams  
And through Jesus you can see  
That healing's just another word for love

I love the doctors and the AMA  
I'm glad that people get help that way  
With their disease  
I know that God is pleased  
But I have learned what love can do  
Seen bodies healed through and through  
And minds set free  
From anxiety

Yes, there's a hurt that the x-rays don't show  
There's a cure that the doctors don't know  
There's a God that loves you and me

Healing is faith  
And it's prayer  
It's knowing that He's always there  
Healing is light  
In the dark  
It's knowing His forgiveness in your heart  
Healing is hope  
And it's dreams  
And through Jesus you can see  
That healing's just another word for love

I have seen life's mysteries  
In this Man from Galilee  
Who died for us  
To gain our trust  
Through His eyes I've come to see  
The one and true reality  
Of love and grace  
In this world I face

I know there's hope for the sick and the lame  
I've seen them healed at the mention of His Name  
I've seen the power of His love for you and me

Healing is faith  
And it's prayer  
It's knowing that He's always there  
Healing is light  
In the dark  
It's knowing His forgiveness in your heart  
Healing is hope  
And it's dreams  
And through Jesus you can see  
That healing's just another word for love...  
Thank You, Jesus
