

I Got The Cure

Dion

You got the fever, you got the shakes
You feel the pressure, baby, for heaven's sake
Oh tell me, baby, tell me right now
You want it better, I'll show you how

One thing for certain, hey, one thing for sure
No doubt about it, I got the cure

Let me feel your pulse, baby, let me hear your heart
Show it to me, baby, this is how it starts
You're feeling restless, you're feeling hot
Come see the doctor, I'll show you what I got

I said now one thing for certain, hey, one thing for sure
No doubt about it, I got the cure
I got the cure, baby
I got the prescription, I got it right here

Hey, come over here, baby, I'll whisper in your ear
Take me two times daily
Take me two times slow
Take me right there with you, baby
Everywhere you go

I said, one thing for certain, hey, one thing for sure
No doubt about it, little girl, I got the cure

I got no needles, I got no junk
I'm the drug you need, baby, don't need that punk
Don't need no smack, no crack cocaine
I got the thing, baby, take away your pain

One thing for certain, hey, one thing for sure
Yeah little girl, little girl
I got the cure
I got the cure, baby
Come on
