

I've Got To Get To You

Dion

You know I'd take a helicopter or a Concorde jet
A creaky elevator or a red Corvette
I'd water ski an ocean, ride a tugboat, too
There ain't a single thing that I wouldn't do
I've got to get to you, anyway I can
I've got to get to you, baby, I'm gonna be your man

You know I'd drive an ice cream truck or a wagon train
Climb the highest flag pole in the pouring rain
I'd take a city subway, use a 10 speed bike
Shoot me out a circus cannon if you like
I've got to get to you, anyway I can
I've got to get to you, baby, I'm gonna be your man

Jockey a camel on the burning sand
Climb every mountain peak across the land
A steam locomotive, a roller skate
My motor's running and it's getting kinda late
I've got to get to you, baby, anyway I can
I've got to get to you, baby, I'm gonna be your man

Love is kind, it suffers long
It's never proud or jealous
Love will never do you wrong
Good God, love, love will never fail us
Love will never fail us
You know I'd ride a steamboat, a motorcycle
Roll across the earth upon a unicycle
I'd grab a taxi, I'll pay the fare
Hop in an air balloon, I don't really care
I've got to get to you, baby, anyway I can
I've got to get to you, baby, I'm gonna be your man

You know I'd drive a tractor or a limousine
Try a pogo stick or a submarine
I'd push a scooter, use an ATV
Rickshaw, dog sled it's all the same to me
I've got to get to you, anyway I can
I've got to get to you, baby, I'm gonna be your main man

Who took the sun, gave you rain
Who will fill your eyes with sorrow
Who came and stole your tender years
Who filled your heart with tears of no tomorrow
No tomorrow
I'll take an escalator
I'd take a flying saucer
A go-kart, a canoe, a lifeboat, a school bus painted blue
I'd take a space shuttle, I'd even take an armored car
A battleship, a bulldozer, you know
And I'm not leaving out angel wings
Here I come
