

Lost For Sure

Dion

As I wander 'round the streets of town
Knowing you are nowhere to be found
The things they say are true, you're with somebody new
I know I'm lost for sure now

Now I know how lonely life can be
Emptiness is deep inside of me
This is no dream it's real, and no matter how I feel
I know I'm lost for sure now

Only those who ever love you say
That you're wanted in a lovely, gentle way
Could leave a guy in tears, could wreck his life for years
I know I'm lost for sure now

Now I know how lonely life can be
Emptiness is deep inside of me
This is no dream it's real, no matter how I feel
I know I'm lost for sure now
