

# Mama Said

Dion

I asked my mama  
Where I might find the kind of girl that go easy on my mind  
But I can't recall what my mama said at all  
Mama said

I know your mama  
I know what she would say  
She'd tell you look at me and never look away  
You don't need to recall what your mama said at all

I told my mama the day I met you  
You were the only one and I was all done feeling blue  
She had a word to the wise, yeah  
But I forgot her reply (I wanna be your mama, baby)

Mama said  
Now don't you worry if it slipped your mind  
She said I'm the funnest girl that you'd ever find (you'd ever find)  
'Cause that girl be true, yeah  
That's what your mama said to you  
(You know you my moochie coochie)

With great respect, trust me I checked  
Your mama wanted you to grow up strong  
She'd rather see (she'd rather see)  
You here with me (you here with me)  
So I intend to shake you lose from the care and the comfort of  
mother goose

I don't like drama (nobody likes drama, baby)  
I listen to my mama's voice (you need to listen to me)  
If you said she said it, then I guess I have no choice (you don't)  
I skip all my love to you  
If that's what my mama said to do (I wanna be your mama now, baby)

Listen to me, boy  
Mama's a girl and so am I  
We know what's best for mama's good-looking guy  
You can trust all my charms, yeah  
Just rest here in my arms  
Come here, baby (come on baby)  
And rest here in my arms

Mama said  
(And you're my little moochie coochie, haha)
