

## My Day

Dion

My day begins with you  
You are the sun and dew  
Soon as I hold you so closely  
My eyes will shine  
'Cause you're mine

My day has gone, oh night  
'Til you are out of sight  
And if the sky is all cloudy  
It turns to blue  
'Cause of you

I used to face my day with a lonely heart  
Wondering when my happiness would start  
My day has come at last  
My loneliness has passed  
Now that you've told me, my darling  
With me, you'll stay  
Everyday
