

Only You Know

Dion

I wanna see somethin' that used to be in your eyes again
I'm waiting to see it
You know it's only a question of when
And I know I must be missin' heaven
You know that it's missin'

And only you know
Where you have been to
Only you know
What you have been through
There's better things you're gonna get into
And I wanna be there too

I know it's not easy for you to start to believe again
And when the day comes, don't let yourself be deceived again
Yes I know how you've been waiting such a long time
That you've been waiting

And only you know
Where you have been to
Only you know
What you have been through
There's better things you're gonna get into
And I wanna be there too
(You know I do)

And I know
How you've been waiting such a long time
That you've been waiting

And only you know
Where you have been to
Only you know
What you have been through
There's better things you're gonna get into
And I wanna be there too
