

Soul Force

Dion

I thought that I could dazzle by distraction
And how could she resist my kind of action?
I know I could impress her by my style
But now I find that I'm the one on trial

She got a soul force
Talking about a soul force
Oh, that's her superpower
Stronger by the hour
Soul force

Ask anybody about my reputation
I get every girl to tune in to my station
I do my thing, I always get my way
At least that was the case until today

She got a soul force
That's what it is, a soul force
Oh, that's her superpower
Got a soul force
Soul force

In every game I always won the prizes
Taken home a trophy in all sizes
While I keep talking this girl's walking by
I gotta do something new to catch her eye

She got a soul force
She got a soul force
That's her superpower
Stronger by the hour
She got a soul force

My trademark is my New York City charms
I got a way to get them in my arms
But this girl I can't seem to impress
Excuse me now, my ego is a mess

She got a soul force
Talking about a soul force
That's her superpower
Stronger by the hour
It's a soul force
She got a soul force
