

The Pattern Of My Lifeline

Dion

Jenny read me Zodiacs and tables
From Mary I learned consciousness through Zen
Linda taught me geometric tables
But only you said, "let's begin again"

Karen demonstrated every dance step
Laura bought me all that money could buy
Sherry cooked dinners like a French gourmet
But only you could see through every lie

Maybe that's the pattern of my lifeline
Maybe I've been misled far too long
Now you and I can find the truth on down the line
It makes no difference If sometimes we're wrong

Jeannie knew the wild inside of summer
Carol claimed her health foods made me well
Gina lost herself In books to guide her
But only you knew more than they could tell

Maybe that's the pattern of my lifeline
Maybe I've been misled far too long
Now you and I can find the truth on down the line
It makes no difference If sometimes we're wrong

Maybe that's the pattern of my lifeline
Maybe I've been misled far too long
Now you and I can find the truth on down the line
It makes no difference If sometimes we're wrong
It makes no difference If sometimes we're wrong
It makes no difference If sometimes we're wrong
