

# You've Awakened Something In Me

Dion

You've awakened something in me  
I never knew existed

I'd like to crawl inside you

To feel all that you believe

You found the music in me

The melody will play on

And I can hear your heart beat

A thousand miles away

Chorus:

You know I bet like I've been lifted high

Through the wind and clouds to touch the sky

I feel like I can fly

You're a child, yet you're a woman, babe

'Tween innocence and passion

Come here and lay beside me I can't leave your love  
alone

Lisa, you've captured me

Made my dream realty

Repeat Chorus

The years that lie between us

They're like corridors unlighted

The torch that I am holding

Will always last to light my way
