

Age of Miracles

Dionne Warwick

You dream a dream to make it real
To love me more than I thought possible
You lived a life
You by my side in an age of miracles

The light in the dark
You come to me
You make me feel the world is beautiful
Who would believe we dared to see an age of miracles

I wanna love you in this age of miracles
Yeah I believe dreams come true
You make me feel real love is possible
My love, baby that miracle is you

Along the wall the people dance
You take my hand and I'm in love again
You found the key
You set me free in an age of miracles

Oh there's some words oh I must believe
In every day, eh baby up
Let candles bright, bright up the night is an age of miracles

Oh I wanna love you in this age of miracles
Yeah I believe dreams come true
You make me feel real love is possible
My love oh maybe that miracle is you

I wonder
who would believe we live to see
oh light up the night, burn candles bright
oh oh

Oh I wanna love you in this age of miracles
Yeah I believe dreams come true
You make me feel real love is possible
My love oh maybe that miracle is you
(3x)
