

Come Back

Dionne Warwick

Come back and let me love you
Darling, won't you come back
And let me hold you near
It's lonely here
Come back and let me love you
Darling won't you come back
And light my way again
Don't let us end

You took my yesterdays
And left me no tomorrows
You pushed me out of your life
Into a river of sorrow
I'm less the woman now
Than I was before
You took the key to life
And locked me out of the door

Come back, baby, won't you come back

Come back and let me love you
Darling, won't you come back
And let me hold you near
It's lonely here
Come back and let me love you
Darling won't you come back
And light my way again
Don't let us end

You took the pillow
That I was dreaming on
You took the shoulder darling
That I was leaning on
Who's gonna help me
When I've lost my way
Who can I turn to
For the love I need today

Come back, oh I need you
Baby, won't you come back

Come back and let me love you
Darling, won't you come back
And light my way again
Don't let us end

Come back and let me love you
Darling, won't you come back
And light my way again
Don't let us end

Come back and let me love you
Darling, won't you come back
And light my way again
Don't let us end

Come back and let me love you

Darling, won't you come back
And light my way again
Don't let us end
