

# For Everything You Are

Dionne Warwick

For everything you are  
There must have been a dream  
Of being better than the best  
Nothing more and nothing less  
For everything you are  
For wishes made on stars

For everything you are  
You had to take a chance  
Of throwing caution to the wind  
Who knew then if you'd lose or win  
For everything you are  
For wishes made on stars

There's no short cuts in life  
And the one thing I've learned from you  
Is to hold on to the dreams that we start  
And keep it close in our hearts, in our hearts

For everything you are  
There must have been a dream  
Of being better than the best  
Nothing more and nothing less  
For everything you are  
For wishes made on stars

This is for everything you are  
For wishes made on stars  
For making it this far  
For everything you are  
That's why I love you  
For everything you are  
This is for wishes made on stars, that's why I love you  
This is for everything you are
