

Got You Where I Want You

Dionne Warwick

Lost and lonely in the night
I wished upon a star
I wished for someone just like you
For my love and now here you are

I know any fool could see
You and I were meant to be

Now I got you where I want you
Right here by my side
Oh, you got me where I want to be
In your arms so satisfied
When you love the way you do
It makes me glad that I got you
I got you where I want you
(Where I want you)
Oh, I got you where I want you
(Where I want you)

Heaven must have heard my prayer
And sent you here to me
You must be an angel
'Cause this feeling is so heavenly

I know any fool could see
You and I were meant to be

Now I got you where I want you
Right here by my side
Oh, you got me where I want to be
In your arms so satisfied
When you love the way you do
It makes me glad that I got you
I got you where I want you
(Where I want you)
Oh, I got you where I want you
(Where I want you)

I wanna hold you here forever
Spend every moment makin' love to you
The sweetness of your kiss
The touch I can't resist

I got you where I want you
(I got you where I)
Oh, I got you where I want you
(Where I want you)
Yes, I got you where I want you
(I got you where I)
Oh, I got you where I want you
(Where I want you)

Now I got you where I want you
Right here by my side
Oh, you got me where I want to be
In your arms so satisfied
When you love the way you do

It makes me glad that I got you
I got you where I want you
(I got you where I)
Oh, I got you where I want you
(Where I want you)

Yes, I got you where I want you
(I got you where I)
Oh, I got you where I want you
(Where I want you)

Yes, I got you where I want you
(I got you where I)
Oh, I got you where I want you
(Where I want you)

Yes, I got you where I want you
(I got you where I)
Oh, I got you where I want you
(Where I want you...)
