

## Heart Of Brazil

Dionne Warwick

They took all the deaths of the warriors  
That we will see no longer just disagree  
And so they're so special they burn and hide  
The very life we hold so dear  
She sighs, she sighs  
A living soul that could take always from all that die  
All these, all these could die  
Forever the soul of nation is forest pride  
It's the heart of Brazil

No longer can we stay away from all that we see  
The falling of trees silently bleeds  
Let's stay embrace and hold  
And take from destiny from breathin'  
Oh, oh, it's the heart of Brazil  
Coração do Brazil

Tem cururu, tem sagüi  
Tamanduá, tatu-bola e jabuti  
Onça pintada, ubari  
Tem capivara, jambu e juriti

Cunhã  
Deus guarde e protege isso pra mim  
Tupã, Tupã, Tupi  
Deus queira que o homem deixe tudo aí  
Coração do Brasil

Eu quero as suas fontes murmurantes pra mim  
Rever teu Cauí ser o teu Curumin  
Eu quero as tuas verdes matas teu céu de anil  
A há! Quero ouvir Guarani

No longer can we stay away from all that we see  
The falling off trees  
She silently bleeds  
Let's stay embrace and hold  
And take from destiny from breathin'  
Oh, oh, it's the heart of Brazil...
