

# In a World Such as This

Dionne Warwick

Someone's lived this life before us, told us  
Don't just watch it from the sidelines, join us  
Say yes  
In a world such as this  
You must find something big you can go for  
Do anything for it and nothing less  
I tell you this  
In a world such as this  
You must find something big you can count on  
Make it your happiness and nothing less

Just remember  
Those who dared to reach for something knew it  
Take the power in your hands and use it  
Say yes  
In a world such as this  
You must find something big you can count on  
Go on the line for it and you will win  
I tell you this  
In a world such as this  
You must find happiness in your own time  
You live and you die for it; that's all there is

Just remember  
There's a reason why we all are here  
Just remember  
There's a reason for it all

Everyone is a part of history  
Everyone of us writes his story  
Everyday it's part of being alive  
At least once in your life you take a stand  
Every one of us fits into a plan  
Every one of us, it's part of why we survive

Say yes  
Don't say no; say yes

In a world such as this  
You must find something big you can go for  
Do anything for it and nothing less  
I tell you this  
In a world such as this  
You must find happiness in your own time  
You live and you die for it and nothing less

You've got to go for the things that you love  
You've got to go for the things that you love  
You live and you die for it; that's all there is

You've got to go for the things that you love  
You've got to go for the things that you love  
You live and you die for it and nothing less
