

# Love Me One More Time

Dionne Warwick

I still remember how it felt  
Everytime that you'd take me  
Into your arms, oh  
I've faced each memory  
Though I've tried to be brave  
I can't make it through one more night  
I can't forget how good you feel  
Touch me, make me feel I'm alive  
No longer can I fight this feeling  
Take me in your arms just one more time

Please make love to me, my dear  
Love me one more time  
(Just) one more time

My need is stronger than my pride  
That's enraged by all I have said  
Here tonight, oh, but I can't help it  
Though I felt like a humble fool  
Standing here in your hall, oh  
Please, ask me in, I know it's late  
Show some pity, don't make me wait  
Oh, maybe once we're close together  
A spark of what we felt will live again

Please make love to me, my dear  
Love me one more time  
(Just) one more time

Please, make love to me, dear  
Please, make love to me, dear  
Please, make love to me, dear  
Love me one more time, one more time

I can't help it, oh, oh, no  
Just love me one more time  
Oh, one more time

Please make love to me, my dear  
Love me one more time  
(Just) one more time
