

# No One In The World

Dionne Warwick

I look back on all those good times  
We once shared and I must have been blind  
Just to think I'd find someone new  
One who'd love me better than you

Well, it may come as a surprise  
Loneliness has opened my eyes  
I tried every love I could find  
Still I can't get you out of my mind

'Cause there's no one in the world to hold me  
No one in the world's gonna move me  
No one in the world can love me  
Like you do, baby

Every time I'm with someone  
I'm loving you, yes, I want to run  
I wanna run back to your arms again  
Ain't no one in the world (No one in the world)  
Loves me like you do

Are you happy now with your life  
Well, for me, I'm breaking inside  
So self-assured that I could not see  
I had it all when you were with me, baby

No one in the world's gonna hold me  
No one in the world's gonna move me  
No one in the world can love me  
Like you do, baby

Every time I'm with someone  
I'm loving you and I want to run  
I wanna run back to your arms again  
Ain't no one in the world (No one in the world)  
Loves me like you do

Please take me back (Please take me back)  
Oh babe, I can't go on (I can't go on)  
I'm not happy in my life without you  
I'll do whatever it takes  
I've got to get you back with me again  
(Got to get you back with me)  
I realize I need you here in my life

(No one in the world) No one, no one  
(No one in the world) Nobody loves me like you do  
(No one in the world)  
(Like) My (You) my (Do) my (And) baby  
(Every time) You got the love that I need  
(Love I need) And you brought it down, heaven on me

Ain't no one in the world (No one in the world)  
In this world  
In this world, hoo... (No one in the world)
