

Right Back

Dionne Warwick

And the light and roses won't fill my empty heart
With our love was real
It made me feel something special
Where's the love we do?
Don't turn away when I'm needing you to hold me tight
And make my life something special

Every day I cry my heart out
Maybe we can work it out
Can when we go right back
And start all over again
Can we go right back
When we were friends, we go right back
Don't make miss the end
We go right back
Right back

Feelings and emotions
Are dreams that never live
But time makes you see
Only love can be for those who given

Reaching out for you we both were wrong
Let's make it right
So won't you stay
Come and take away this hurt inside

Cause I don't wanna cry my heart out
Maybe we can work it out
Can we go right back
And start all over again
Can we go right back
When we lover as friends
We go right back
Don't make miss the end
We go right back
Right back

Can we go right back
And start all over again
We go right back
When we lover as friends
We go right back
Don't make miss the end
We go right back

Love was real, it was something special

Hold me tight
I don't wanna cry my heart out
Maybe we can work it out

Can we go right back
And start all over again
We go right back
When we lover as friends
We go right back

Don't make miss the end
We go right back

Right back
Right back
Right back

And start all over again
Can we go right back
When we lover as friends
We go right back
Don't make miss the end
We go right back

Right back
Right back
Right back

Right back and start all over again
We go right back
When we lover as friends
We go right back
Don't make me miss the end
We go right back

Right back
Right back
Right back
